

CHANGING EMAIL CLIENT PREFERENCES

Microsoft Outlook

To cause all forwarded messages to be an RFC-822 MIME encoded attachment:

1. Click Tools > Options.
2. Click Preferences > E-mail Options.
3. In the drop-down section When Forwarding a Message, choose Attach Original Message.
4. Click OK.
5. Click OK.
6. In the drop-down section When Replying to a Message, choose Attach Original Message.
7. Click OK.
8. Click OK.

Outlook Express 6

1. Open Outlook Express 6.
2. Right-click the message that you want to submit.
3. Choose Forward As Attachment.

Entourage (Apple Mac)

1. Open Entourage.
2. Right-click the message to submit.
3. Choose Forward as Attachment.

Apple Mail.app

1. Open Apple Mail.app
2. File > Save As, Format - Raw Message Source, Repeat for each spam message.
3. Create a new message.
4. Attach raw source file(s) to the new message.

Mozilla Thunderbird

1. Open Thunderbird.
2. Select (i.e. highlight) message.
3. Click Message > Forward As > Attachment. (Message is at the top, next to File Edit View Go.)

Netscape Messenger

1. Open Netscape Messenger.
2. Right-click the message to submit.
3. Choose Forward as an attachment.
